

MAYBACH

OIL & GAS

COMPANY
PROFILE

ABOUT US

Maybach Oil & Gas, established in 2014, is a premier energy company specialising in the import, export, and distribution of petroleum products with a strong focus on Diesel, Petrol, Jet fuel, Illuminating paraffin, LPG.

Headquartered in Nelspruit, South Africa, we leverage the strategic ports of Matola and Beira to ensure dependable supply into Southern Africa. These corridors are established regional hubs for liquid fuels logistics and storage, supporting cross-border distribution.

Our advanced loading capacity at Matola supports seamless trade and high-volume dispatches across neighbouring countries. With an experienced team and a trusted supplier network, we deliver reliable energy solutions to wholesalers, mining, agriculture, industrial plants, government, transport and logistics companies, service stations, and taxi associations.

Vision

To shape the energy landscape by pioneering sustainable, accessible energy solutions that minimise environmental impact and support community development.

Mission

To be a leading provider of energy resources, offering reliable supply, world-class partnerships, and innovative solutions tailored to the diverse needs of our clients across Southern Africa.

Our Promise

At Maybach Oil & Gas, we commit to transparency, reliability, and innovation. We continuously invest in logistics, infrastructure, and compliance to ensure our clients receive superior energy solutions with the highest standards of safety and efficiency.

PRODUCTS & SERVICES

Maybach Oil & Gas provides a diverse portfolio of high-quality energy products to meet the needs of multiple industries across Southern Africa. Our product range includes:

- 50ppm sulphur diesel and other diesel grades
- Petrol
- Jet fuel
- Illuminating paraffin
- Lubricating oil & industrial oils
- Bitumen
- LPG (liquefied petroleum gas)

These products are sourced through our registered reseller agreements with Vitol, Puma Energy, Trafigura and TotalEnergies, ensuring consistent quality, competitive pricing, and reliable availability across the region.

Our reseller agreement with Vitol allows Maybach Oil & Gas to collect from all ports within the SADC region, ensuring efficient access to both inland and coastal markets. With Vitol's strategically located network, we provide seamless regional coverage and dependable logistics.

Maybach Oil & Gas has access to Vitol's gantry sites across the SADC region, including:

- Matola Port, Mozambique
- Beira Port, Mozambique
- Nacala Port, Mozambique
- Walvis Bay Port, Namibia
- Dar es Salaam Port, Tanzania
- Durban Port, South Africa
- Cape Town Port, South Africa
- Richards Bay Port, South Africa
- Maputo Port, Mozambique
- Lobito Port, Angola
- and all their International Ports

In addition to maritime deliveries, Maybach Oil & Gas also supplies fuel to Kruger Mpumalanga International Airport (KMIA).

Additionally, Maybach Oil & Gas supplied a 67 000lt aviation fuel storage tank with pump, suitable for Jet A-1 fuel, along with a brand-new 21 000lt aluminium tank and Iveco truck with all auxiliaries to Pemba Airport in Mozambique.

We also invite our clients to uplift product directly from the gantries, providing flexibility and convenience for bulk buyers who prefer to manage their own transport logistics.

This extensive footprint enables Maybach Oil & Gas to guarantee secure and efficient energy delivery across the SADC, ensuring clients receive uninterrupted supply regardless of location.

REGISTERED RESELLER

Maybach Oil & Gas is a registered reseller of world-class energy suppliers – Vitol, Puma Energy, Trafigura, and TotalEnergies.

This distinction strengthens our service offering by ensuring that our clients benefit from:

- Vitol is our primary supplier, providing access to one of the world's largest independent energy supply and logistics networks. Through Vitol's extensive presence across all SADC ports and throughout Africa, Maybach Oil & Gas is able to offer unmatched reach, secure supply, and flexibility for clients in both inland and coastal regions. Vitol's scale and infrastructure ensure reliability across the entire continent.
- Puma Energy strengthens our regional operations in Mozambique with extensive downstream networks and distribution capacity.
- Trafigura adds further expertise in trading and logistics within Mozambique, ensuring competitive supply and efficient regional access.
- TotalEnergies supports distribution and diversification of energy solutions in Mozambique, enhancing delivery capabilities and ensuring cleaner energy options.

TotalEnergies

Together, with our suppliers, Maybach Oil & Gas offer a stable and competitive edge in the industry with a Africa-wide footprint.

Quality & Compliance

We adhere strictly to SANS 342 and Clean Fuels II standards, ensuring our products meet the highest levels of quality and environmental compliance. Our operations are guided by robust governance, transparency, and a commitment to continuous improvement.

Environmental Responsibility

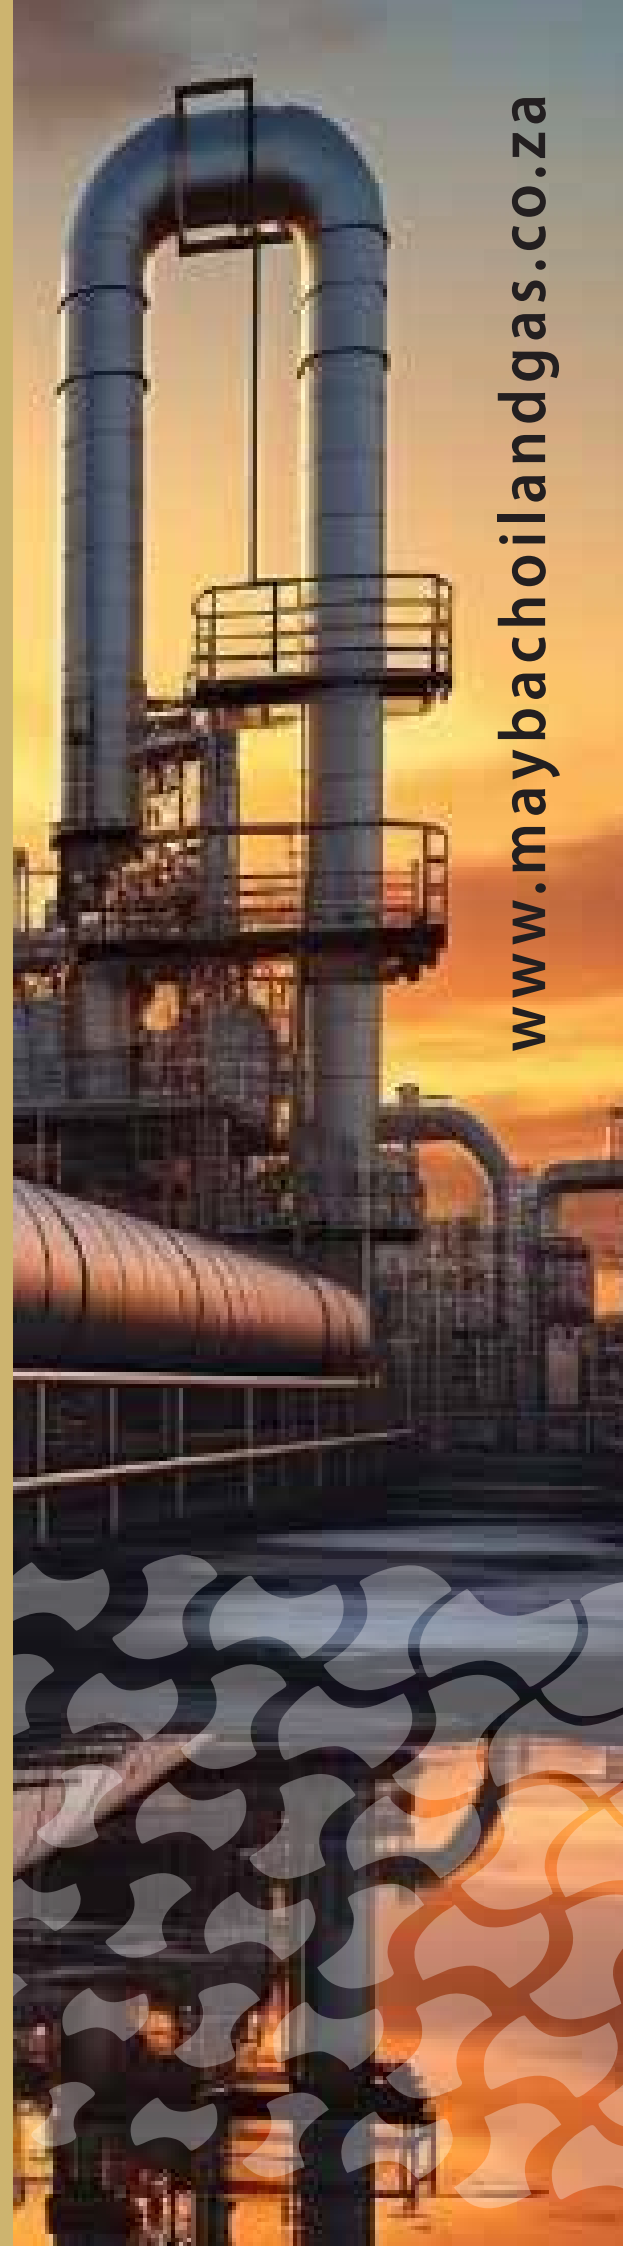

Maybach Oil & Gas recognises the importance of reducing environmental impact. We align our operations with global best practices for cleaner fuels, efficient logistics, and responsible handling of petroleum products. Our strategy includes investment in eco-friendly technologies and community-based sustainability initiatives.

Regional Infrastructure

With established infrastructure in Matola and Beira, we maintain robust supply chains that link international suppliers to local and cross-border clients. Our logistical capabilities support high-volume distribution, minimising downtime and ensuring security of supply throughout Southern Africa.

Technical Reference

Our technical expertise ensures compliance with international standards and best practices in fuel handling, storage, and distribution. Continuous monitoring and rigorous quality assurance processes underpin every aspect of our operations.
