

MAYBACH OIL & GAS

COMPANY PROFILE

A Premier Energy Supply Partner for Southern Africa

MAYBACH
OIL & GAS

ABOUT US

Maybach Oil & Gas is a dynamic petroleum trading and distribution company established in 2014, headquartered in Mbombela, Mpumalanga. We specialise in the import, export, procurement, and distribution of refined petroleum products across Southern Africa.

With strategic access to key fuel corridors and partnerships with global energy suppliers, we deliver reliable, cost-effective energy solutions to industries including mining, agriculture, aviation, transport, construction, and government.

OUR VISION

To be Southern Africa's most reliable and sustainable energy supply partner, powering progress across industries and communities.

OUR MISSION

To provide dependable, efficient, and transparent energy supply solutions that support economic growth and industrial development across the region.

OUR PROMISE

Transparency • Reliability • Safety • Innovation

OUR EXPERTISE

Strategic fuel sourcing & procurement • Bulk supply & logistics management • Regional fuel corridor access • Fuel storage & infrastructure solutions • Aviation fuel supply • Fuel management & monitoring systems

PRODUCTS & SERVICES

PETROLEUM PRODUCTS

- Diesel (50ppm & 500ppm)
- Unleaded Petrol (ULP 93 & ULP 95)
- Jet Fuel (Jet A-1)
- Liquefied Petroleum Gas (LPG)
- Bitumen & Road-Grade Products
- Illuminating Paraffin
- Lubricants & Greases
- Heavy Furnace Oil (HFO)

SERVICES

- Bulk fuel supply & delivery
- Logistics planning & coordination
- Fuel storage & infrastructure solutions
- Aviation fuel supply (Jet A-1)
- Fuel management & monitoring systems
- Regulatory compliance & documentation
- Mobile fuelling solutions

MARKET SECTORS

- Mining & Resources
- Agriculture & Farming
- Aviation
- Transport & Logistics
- Construction & Infrastructure
- Government & Parastatals
- Manufacturing & Industrial
- Marine & Shipping

FUEL SUPPLY & DISTRIBUTION

Maybach Oil & Gas offers flexible fuel supply models tailored to client needs. Whether through direct gantry upliftment from coastal depots or full delivered supply to site, we ensure uninterrupted fuel availability across Southern Africa.

REGIONAL INFRASTRUCTURE

- Matola Corridor (Mozambique)
- Beira Corridor (Mozambique)
- Durban (South Africa)
- Walvis Bay (Namibia)
- Richards Bay (South Africa)
- Maputo (Mozambique)
- Pemba (Mozambique)

TRANSPORT & LOGISTICS

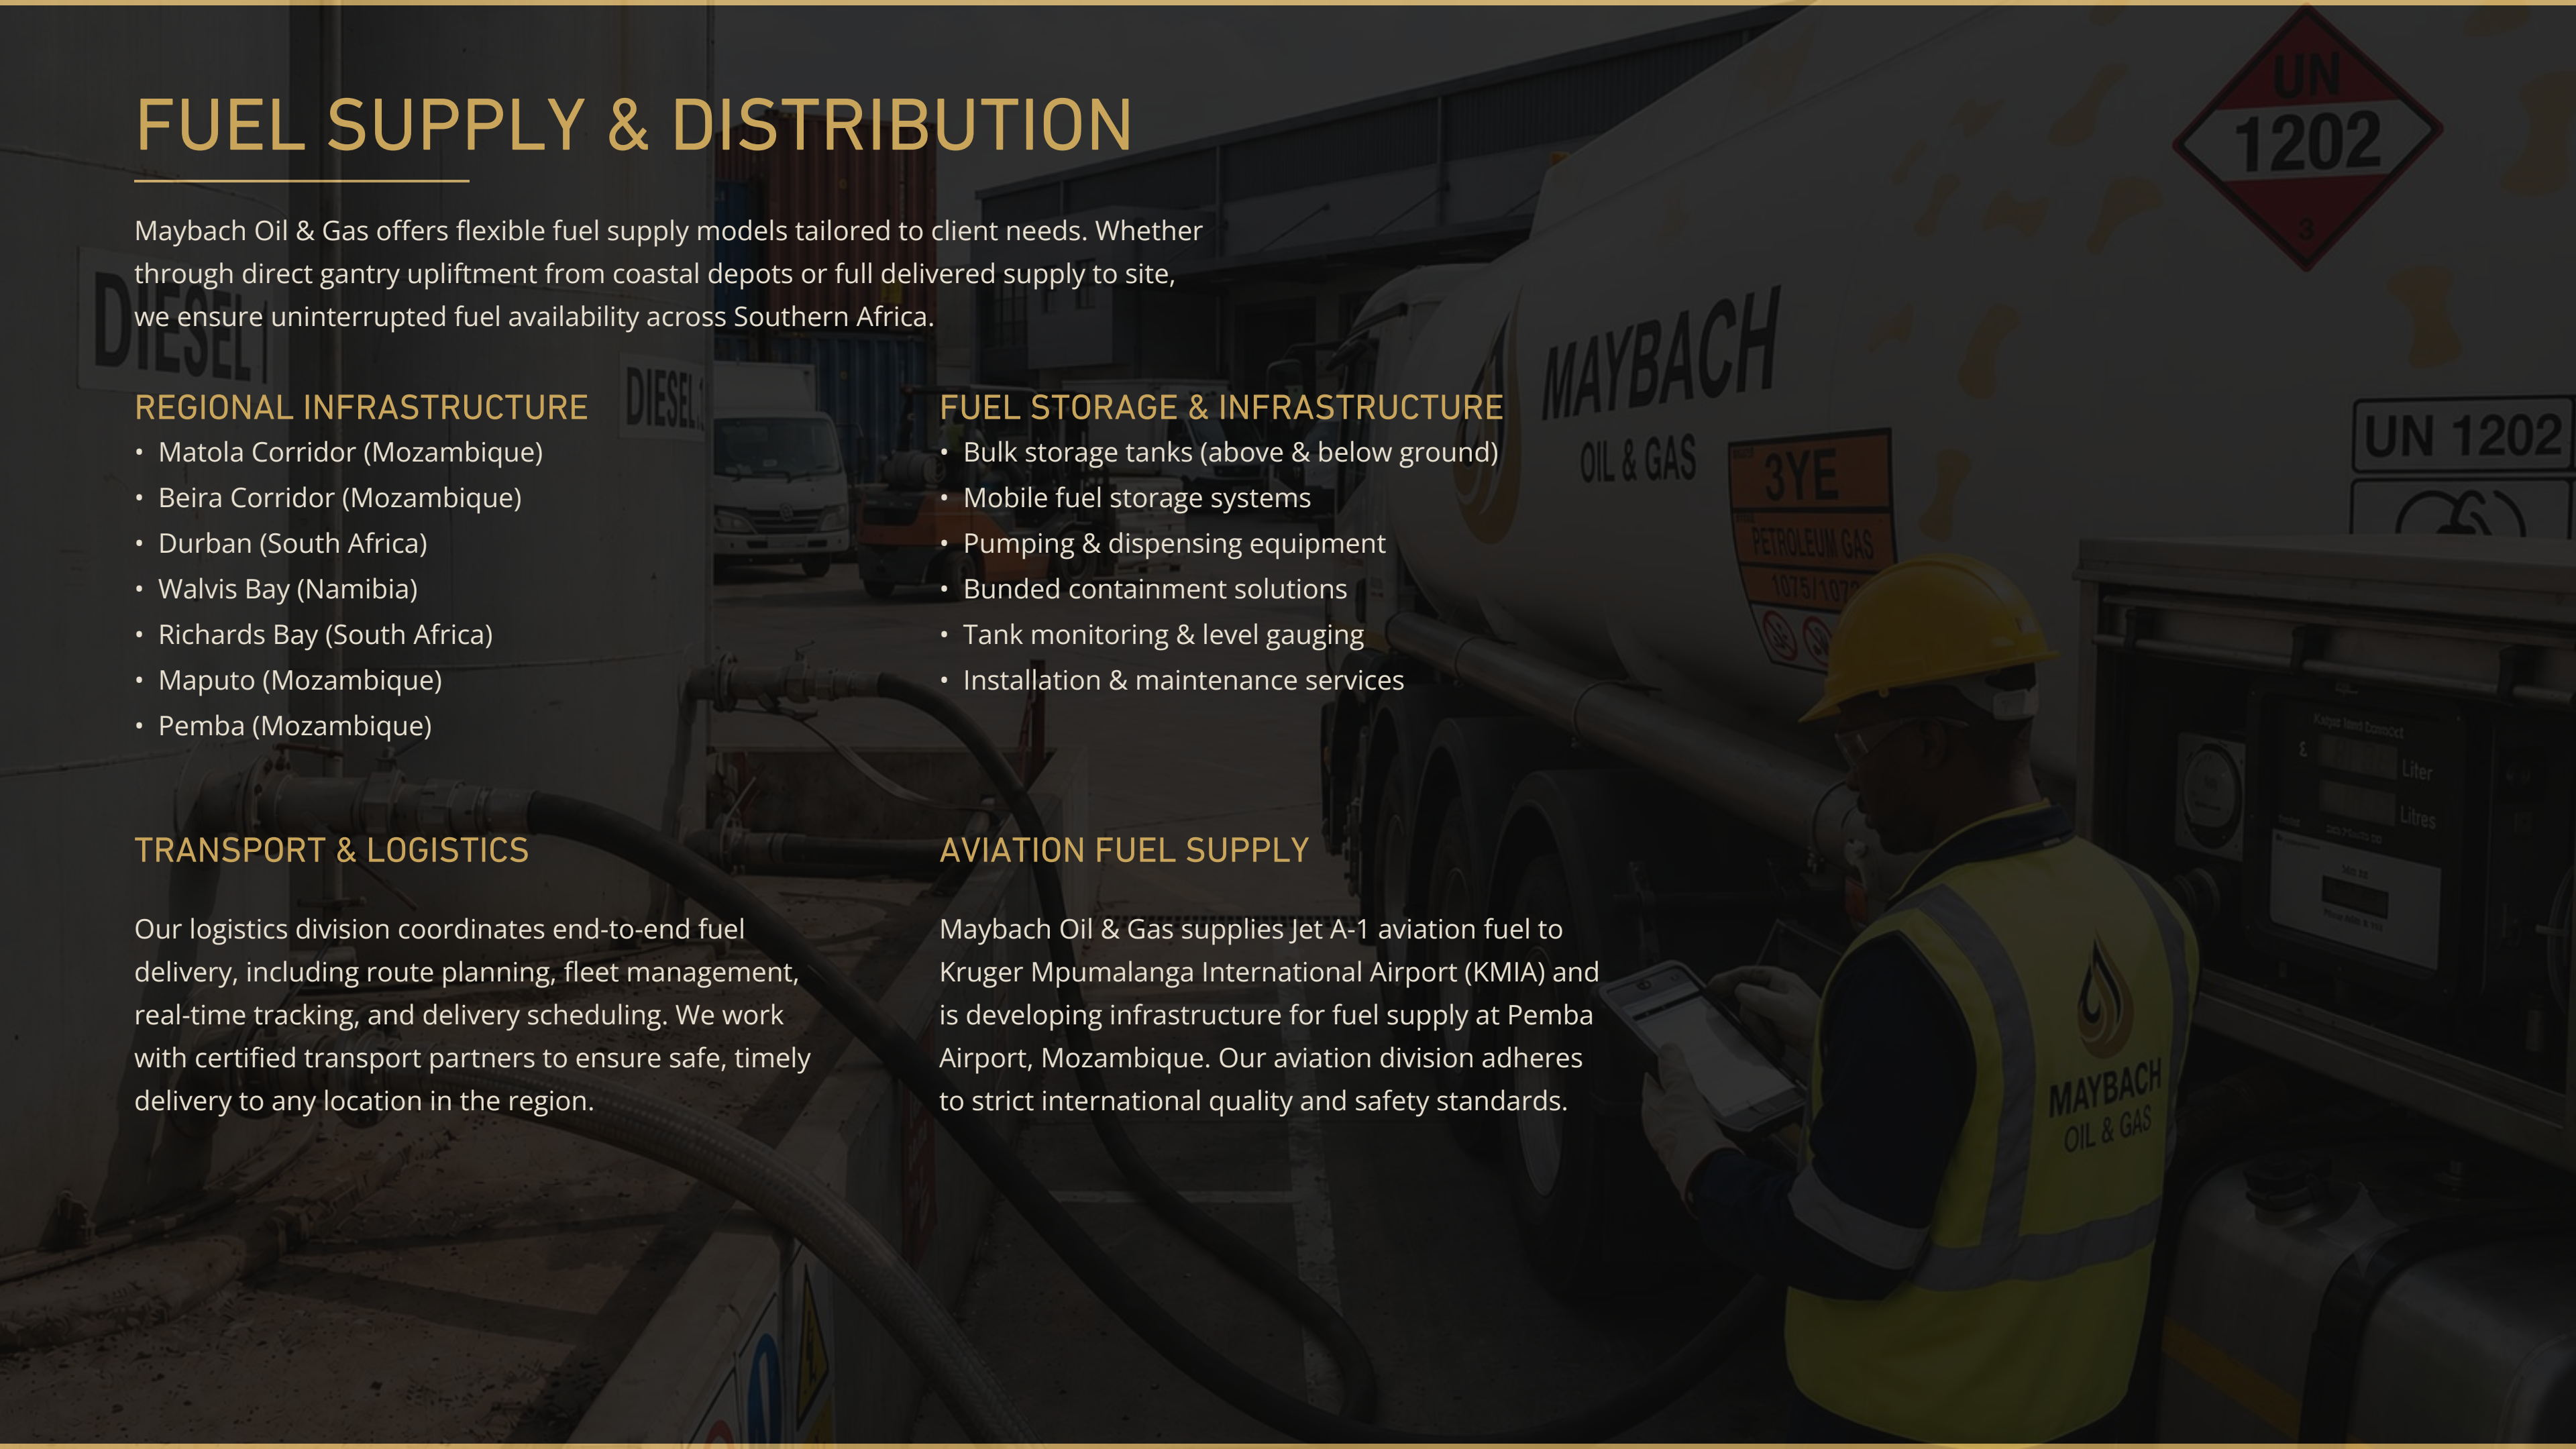

Our logistics division coordinates end-to-end fuel delivery, including route planning, fleet management, real-time tracking, and delivery scheduling. We work with certified transport partners to ensure safe, timely delivery to any location in the region.

FUEL STORAGE & INFRASTRUCTURE

- Bulk storage tanks (above & below ground)
- Mobile fuel storage systems
- Pumping & dispensing equipment
- Bunded containment solutions
- Tank monitoring & level gauging
- Installation & maintenance services

AVIATION FUEL SUPPLY

Maybach Oil & Gas supplies Jet A-1 aviation fuel to Kruger Mpumalanga International Airport (KMIA) and is developing infrastructure for fuel supply at Pemba Airport, Mozambique. Our aviation division adheres to strict international quality and safety standards.

QUALITY & COMPLIANCE

Maybach Oil & Gas maintains rigorous quality control across all operations. All products comply with South African National Standards (SANS 342) and Clean Fuels II specifications. Our quality assurance processes include certificate of quality verification, product sampling and testing, documented chain of custody, and regulatory compliance at every stage.

ENVIRONMENTAL RESPONSIBILITY

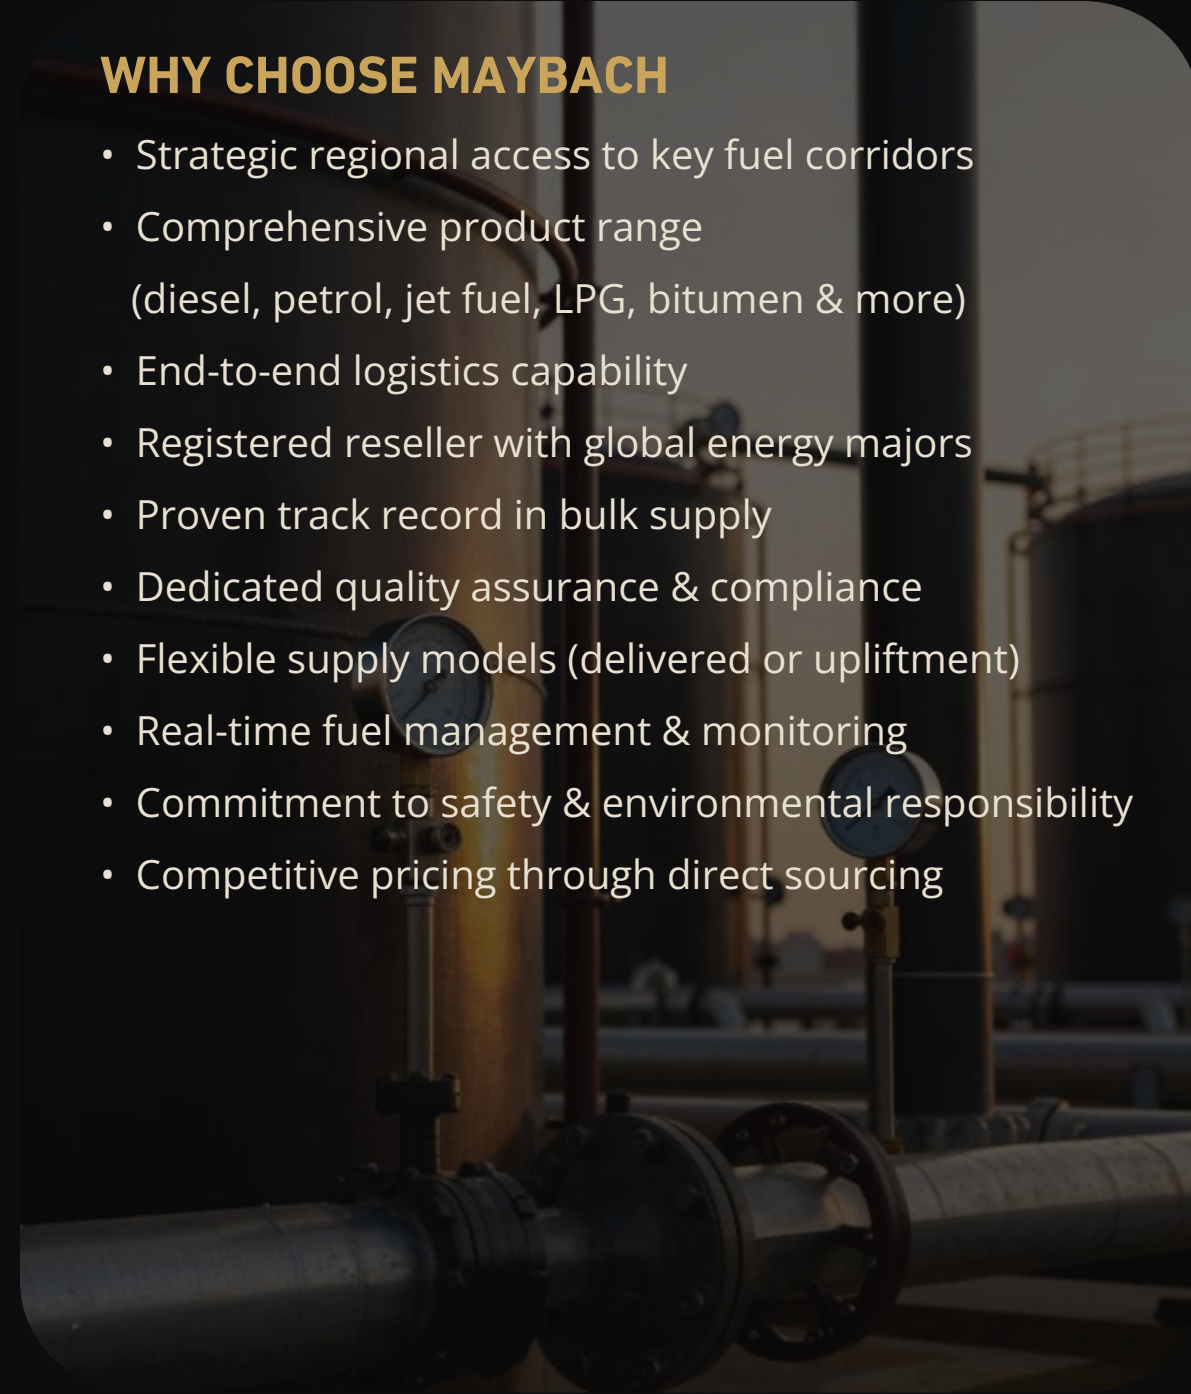

We are committed to minimising environmental impact through the promotion of cleaner fuel grades, responsible logistics planning, spill prevention protocols, and compliance with environmental legislation. Our operations prioritise sustainability without compromising on service delivery.

FUEL MANAGEMENT SOLUTIONS

Our fuel management systems provide clients with real-time monitoring, consumption tracking, automated reporting, and loss prevention tools. These solutions enable data-driven decision-making and optimised fuel usage across operations.

WHY CHOOSE MAYBACH

- Strategic regional access to key fuel corridors
- Comprehensive product range (diesel, petrol, jet fuel, LPG, bitumen & more)
- End-to-end logistics capability
- Registered reseller with global energy majors
- Proven track record in bulk supply
- Dedicated quality assurance & compliance
- Flexible supply models (delivered or upliftment)
- Real-time fuel management & monitoring
- Commitment to safety & environmental responsibility
- Competitive pricing through direct sourcing
